SUMMARY

Computer Science student skilled in Full Stack Development and Machine Learning, with hands-on experience building and deploying web applications and predictive systems using Python, React, Node.js, and JavaScript. Experienced deploying applications on cloud platforms (AWS, Azure, Render, Vercel), with strong object-oriented programming skills.

EDUCATION

Vignan's Institute of Information Technology B.Tech, Computer Science and Engineering CGPA: 8.9	2023 - 2027
Sri Chaitanya Junior College Intermediate Education Percentile: 94.5	2021 - 2023

TECHNICAL SKILLS

Languages: Python, Java, HTML, CSS, JavaScript
Tools/Frameworks: Flask, Node.js, React.js, Git, GitHub, REST APIs
Databases: MySQL, PostgreSQL, MongoDB, SQL
AI & LLMs: Groq LLM API, OpenAI API, Prompt Engineering
Other: Data Structures & Algorithms, Object-Oriented Programming

PROJECTS

- SmartInvest**
- Developed a Stock Market Learning Platform using HTML, CSS, JavaScript, React.js, Node.js, Python, and MySQL, deployed on AWS/Vercel for demo trading and AI-driven insights.
 - Integrated live market news and company leaderboards to enhance user engagement and learning experience.
- TaskFlow Hub**
- Built a full-stack task management platform with task creation, assignment, and real-time progress tracking.
 - Implemented secure authentication and role-based access control to improve team productivity and workflow management.
- Employee Salary Prediction**
- Built an AI/ML-based salary prediction system using Python and Scikit-learn to estimate salaries from experience, skills, education, and job role.
 - Optimized regression models to improve prediction accuracy and runtime performance.

WORK EXPERIENCE

- Artificial Intelligence & Machine Learning Intern — AICTE** **Jun 2025 - Jul 2025**
- Completed a 6-week internship covering AI, machine learning, and data analysis fundamentals through hands-on exercises and applied ML workflows.
 - Gained exposure to real-world AI/ML applications and structured problem-solving techniques.
- ServiceNow Virtual Internship Program** **Jun 2026**
- Gained hands-on experience in ServiceNow Administration, workflow automation using Flow Designer, and reporting.
 - Built familiarity with the Automated Test Framework (ATF) and Agentic AI concepts while preparing for CSA certification and strengthening ITSM skills.

CERTIFICATIONS

- Cisco Networking Academy: Python Essentials 1 & 2, JavaScript Essentials, CCNA Networks
- DataCamp: AI Fundamentals
- Sololearn: C, Python, SQL, HTML, CSS, JavaScript
- Edunet: Artificial Intelligence
